PROFESSIONAL SUMMARY

Second year student of Moscow Institute of Physics and Technology, spent one grade in academic leave and as an exchange student in Finland at the same time. After a year of travelling and acting in student theatres finally decided that I am a brainwork addict.
Choosing between dedicating myself to game-development, sticking with science and making real money.

WORK HISTORY

Teacher in math camp

summer 2018, winter 2018

Creation of tasks for school children, checking.
Lectures about Machine Learning and Blockchain.

Assistant in programming lessons

spring 2017, gymnasium 1514

Help with solving programming problems and computer environment

Host in Time-cafe "Timeclub - Vault"

Moscow, 04/2018 - 07/2018

In time cafe your job is to be a nice host.
Welcome new customers, tell them about the rules&prices, and after that just hang around with them - talk, play board games, lead or help to organise role-play sessions and so - on to sustain the atmosphere of the place.

ACCOMPLISHMENTS

- Junction participant in Helsinki, Finland. Year 2018, Game Jam track.
- MLH hackathon participant in Moscow, Russia. Year 2017, Yandex main challenge.
- 'Newcomer of the year' honorable mention in Finnish Debate Association

HOBBIES

I act in student theatre. And I am actually planning to apply for Acting College this year, really, why not.

Have some experience in British Parliament Debates. I like debating, because you have to use both your public speaking skills and critical structural thinking at the same time.

Play piano, guitar and can sing a little bit. I have a dream to complete a full road-trip across America by hitchhiking, making money with street performances while travelling.

ADDITIONAL INFORMATION

At school successfully participated in individual and team math competitions.

Not married.
